Accessibility Policy

Context

The schools of the South Orpington Learning Alliance (SOLA) Multi-Academy Trust are committed to offering an inclusive environment to ensure the best possible outcomes for all of our pupils, regardless their individual needs or abilities. SOLA schools strive to create a common ethos built around the key principles of inclusion of, respect for and sensitivity to all in order to provide the best opportunities for all pupils, particularly those with identified Special Educational Needs of any kind.

This policy should be read in conjunction with the following policies and documentation:

- SOLA Vision Statement
- School vision statements
- School SEN Information Reports
- SOLA Equality and Diversity Policy
- School teaching and learning policies
- SOLA Health and Safety Policy
- SOLA Policy for Supporting Pupils with Medical Conditions
- SOLA Improvement Strategy and individual School Improvement Plans

Legal Framework

The Equality Act 2010, in particular Schedule 10 relating to Disability, provides the overriding legal framework for this document. The policy has also been informed by *The Equality Act 2010 and Schools* (Department for Education guidance, May 2014) and *Public Sector Equality Duty Guidance for Schools* (Equality and Human Rights Commission). Under the act, schools cannot unlawfully discriminate against pupils because of sex, race, disability, religion or belief and sexual orientation.

The Trust and its schools have a duty to comply with the Equality Act and its Public Sector Duties. Any failure to do so could result in legal action being taken against the Board of Trustees. Employees of the Trust acting on behalf of the Board of Trustees are also liable for their own discriminatory actions.

The Trust has also sought to maintain relevant principles and practices adopted under previous legislation, including the Disability Discrimination Act 1998, SEN and Disability Act 2001 and the Disability Discrimination Act 2005. The DDA set out a clear framework within which schools should seek to achieve equality of access:

- The physical environment of the school.
- Participation in the school curriculum.
- Communication with parents.

The focus of this document is the physical environment of each school within the Trust.

In all aspects of their functions, the law requires that schools have regard for:

- Promoting equality of opportunity for all.
- Eliminating discrimination on the basis of ability.
- Eliminating harassment of disabled people that is related to their disability.
- Promoting positive attitudes towards disabled people.
- Encouraging wider participation by disabled people.
- Any steps needed to meet disabled people's needs.

Aims

SOLA schools aim to provide an inclusive working, learning and social environment where all members of the school community are included and feel valued, safe and respected. This aim is evident in all Trust-wide and school level policies; it is also reflected in the physical environment of the schools and at school events. Provision is monitored closely to ensure that all pupils, regardless of their abilities, can participate fully in school life.

The key aim of this policy is to improve and maintain access to the physical environment for all children.

Defining disability

The Equality Act 2010 defines a disabled person as a person who has a physical or mental impairment that has a 'substantial' and 'long-term' negative effect on their ability to do normal daily activities.

The terms 'substantial' and 'long-term' are defined as follows:

- 'substantial' is more than minor or trivial - eg it takes much longer than it usually would to complete a daily task like getting dressed
- 'long-term' means 12 months or more - eg a breathing condition that develops as a result of a lung infection

There are special rules about recurring or fluctuating conditions, for example, arthritis. For more details about the special rules see Equality Act Guidance.

School level Accessibility Action Plans

This Accessibility Policy and school level Accessibility Action Plans are drawn up in compliance with current legislation and requirements as specified in Schedule 10, relating to Disability, of the Equality Act 2010. Trustees are accountable for ensuring the implementation, review and reporting on progress of the Accessibility Plan.

SOLA schools are committed to providing an environment that enables full access that values and includes all pupils, staff, parents/carers and visitors regardless of their education, physical, sensory, social, spiritual, emotional and cultural needs. To that end, school level Accessibility Plans will contain relevant actions to:

- Increase access to the curriculum for pupils with a disability, expanding and making reasonable adjustments to the curriculum as necessary to ensure that pupils with a disability are as, equally, prepared for life as are the able-bodied pupils. This covers teaching and learning and the wider curriculum of the school such as participation in after-school clubs, leisure and cultural activities or school visits. It also covers the provision of specialist aids and equipment, which may assist these pupils in accessing the curriculum.
- Improve and make reasonable adjustments to the delivery of written information to pupils, staff, parents and visitors with disabilities.
- Improve access to the physical environment of the school, adding specialist facilities as necessary. This covers reasonable adjustments to the physical environment of the school and physical aids to access education.

The Accessibility Plan will cover a three-year period and will be informed by an Access Audit which will be carried out prior to the initial implementation and subsequent reviews of the plan. School level Accessibility Plans will be updated at least once annually to reflect progress against targets set out in the plan.
